

Revit Drafter

I-5 Design & Manufacture has immediate an opening for an experienced Building Information Modeling (BIM) professional with 3D modeling expertise in Revit and 2D drafting expertise in AutoCAD. This is not an entry-level position—we are looking for an individual who will be able to practically apply their in-depth knowledge of Revit, working concurrently on multiple projects. We offer excellent benefits, opportunities for promotion, and bonuses for outstanding performance. Applicants must be willing to meet at I-5 Design in Lacey, Washington for interview.

Essential Knowledge, Skills and Experience

- At least two years of Revit experience (Required).
- 2-3 years preparing detailed construction drawings, layouts, sketches, and graphic representations of architectural designs.
- 3+ years of industry experience.
- Extensive experience in AutoCAD.
- Must be detailed oriented.
- Must be organized with excellent communication skills.
- Strong proficiency with Microsoft Office.
- 3DS Max and SketchUp experience is a plus.
- Hands on construction experience is a plus.
- Creative and interior design experience and ability a plus.
- Experience in interior design a plus.
- Ability to multitask and meet scheduled completion dates.
- International candidates must have US work authorization.

Typical Duties and Responsibilities:

- Provide 2D CAD and 3D BIM services for interior design, pre-construction, construction and post-construction activities.
- Create and maintain Revit and CAD data for multiple projects to ensure information integrity and consistency during the conceptual design, pre-construction, and construction phases of each project.
- Perform additional Revit drawing assignments as needed.
- Work under the company architect and collaborate with other drafters to perform Revit drafting duties, as needed for multiple design and construction projects.
